COMMUNICATIONS- Board President Jim Preston advised input for the upcoming newsletter is needed. Management will email the office summer hours schedule to Donna. The Board suggested having a small article published providing clarification on the tree trimming services provided by Palmer's. Management will email the explanation of the services from Palmer's.

COVENANTS- Committee Chair Bo Marlin reported there are more residents reporting violations and the visits provided by Management are helping. Trash can, front yard lights and recycling bins are the most common violations. The Board advised Mr. Marlin that he should be issuing notices for weeds in the yard as that falls under property "maintenance." Mr. Marlin reported he has begun to see a lot of decorations on driveways and the Board may want to consider this when revising the rules and regulations of the community.

ARC- Committee Member Mario Chacon reported having two applications for review.

7547 Lindberg (fence)- The Board reviewed the application. Mr. Chacon expressed concern regarding an evergreen which is located at the corner of the proposed fence which may be on common property. The Board requested pictures be taken reflecting

the property line as the Board does not want the tree to be damaged during the construction of the fence.

7514 Lindberg (backyard planter)- The Board tabled review for executive session.

MANAGEMENT REPORT

Management reported CEO Darryl Payne was present to discuss any questions the Board may have regarding direct debit. Management has offered the Association a one time waiver for new owners and current residents wishing to sign up for direct debit. A letter will be mailed out to the membership encouraging them to sign up if they have not done so already. Mr. Payne advised once a resident submits the required forms, they will receive a notice providing a withdraw schedule. The offer will last from August 1st-August 30th. Mr. Payne reported one requirement to enroll is that your account be in good standing, however he will confirm with counsel of accounts that are in legal review status.

Management presented the financial statement and general ledger of income and expenses for the Association through the close of business on May 31, 2012.

Management delivered two (2) sets of the Association's taxes for signature.

Management presented a draft policy resolution written by the Association's attorney to comply with the new legislation and Ombudsman regulations in regards to complaint procedures. All associations are required to adopt such policies no later than September 28, 2012. The Board expressed great concern with the draft as it was not in-line with the regulations. Mr. Mikkelson stated the draft missed the intent of the requirement to have a complaint policy for cases where an association fails to follow the law, regulations, or its own governing documents. Mr. Short felt the document was poorly written and unorganized. Management will forward the policy in word format to Mr. Jon Short for editing. Management asked the Board if the resolution should also be sent back to the attorney for revision and review and the Board declined.

Management presented a draft policy resolution as written by the Association's attorney to comply with the new legislation effective July 1, 2012 that requires all associations to adopt a fee schedule for access to association records.

Proposals will be available for the August or September Board meeting.

Management reported on the pool furniture problem of missing end caps. CPI denied having anything to do with the missing end caps. Management recommends the Board not have CPI store the furniture in the future however Mr. Mikkelson directed Management to just have CPI gather the caps to be reinserted into the end of the furniture legs versus throwing them away.

Management presented an email outlining an offer from ADS in regards to the recycle toters along with an addendum to the contract. The Board tabled further action pending the online survey.

Management presented a proposal from PSG for the securing of parking bumper spikes in the community. The Board tabled action pending verification of materials used by Carlos General Maintenance.

Management presented a proposal from Palmer's Property Maintenance for watering of the new landscape that is being installed. The Board tabled action pending comparison of the pending proposal from Landscape and Design.

Board President, Jim Preston requested discussion on disclosure packages and the current requirement to purchase them from Cardinal. Management reported the community governing documents can be downloaded from the community website however accounting information and unit filing is kept by Management therefore if the Board chose to do the disclosure packets they would not be able to provide all required information unless the board took on the responsibility of maintaining these records. The Board may run into issues and deadlines can be missed as well as risking the possibility of not having a complete and accurate packet. There was no further action taken.
